REKTOR POLITECHNIKI CZĘSTOCHOWSKIEJ  
RECTOR OF CZESTOCHOWA UNIVERSITY OF TECHNOLOGY

Ladies and gentlemen,

It is my great pleasure to welcome you at the "virtual" premises of Częstochowa University of Technology at the Scientific Conference "Applications of Physics in Mechanical and Materials Engineering" APMME2021. With special cordiality I greet our foreign guests.

The conference has again been organized by the Department of Mechanics and of Machine Design Fundamentals. I express my gratitude to the conference organizers, who, despite the ongoing epidemic, are trying to hold a forum for the exchange of ideas and experiences in the field of applications of physics in a broader sense of engineering.

I congratulate on the success of the previous conference edition. I would like to thank the Chairman of the scientific committee, Professor Wojciech Sochacki, and the Chairman of the organizing committee, Dr. Sebastian Garus as well as the entire scientific and organizational committee of the conference for your efforts. I would also like to thank the Dean of the Faculty of Mechanical Engineering and Computer Science, Professor Małgorzata Klimek for her kind support in printing conference materials in three different scientific journals (each with IF).

I hope that your next meeting in 2022 will be held in a traditional way, and will give you an opportunity to meet colleagues and friends from other research centers and share your scientific experience.

I wish you all good health, a quick return to normality and fruitful debates.

REKTOR  
prof. dr hab. inż. Norbert Szczygiel
